

Our products are manufactured in compliance with the highest standards, including GMP (Good Manufacturing Practices), ISO 9001 certification, and hold a Free Sale Certificate.

We ensure that all our products meet or exceed European manufacturing regulations, providing exceptional quality and safety for our customers.

HIGHLY FORMULATED AND STABILIZED

Fast Action is not just a hair color; it's a scientifically advanced formula. Our product stands out with its superior pigmentation quality and premium active ingredients like Argan Oil, Hydrolyzed Keratin, and Provitamin B5. These components not only ensure vibrant, long-lasting color but also enhance the overall health and shine of the hair.

UNMATCHED PERFORMANCE AND YIELD

Each tube of Fast Action is 100 ml, mixed in a 1+2 ratio, resulting in a total of 300 ml of usable product per tube. This is nearly unbeatable when compared to industry leaders who typically offer 50 ml or 60 ml tubes with a 1+1 or 1+1.5 mixing ratio. This means that our competitors provide significantly less product at a higher unit price, Fast Action offers up to three times more product than competitors.

COST-EFFECTIVE AND HIGH YIELD

With Fast Action, you get more value for your money. Our larger tube size and higher yield mean more applications per tube, reducing costs for salons and ensuring that clients get consistent, high-quality results every time.

EASY TO USE AND FAST-ACTING

Fast Action is designed for rapid application and development, allowing stylists to achieve permanent color in just 10 minutes. This is a groundbreaking reduction of up to 70% in the time required compared to other permanent hair colors on the market. This efficiency saves valuable time, enabling salons to perform more services and increase revenue without compromising on quality.
